

Growth through disciplined execution

Investor Presentation
July 2019

INVESTMENT HIGHLIGHTS

- 1 Targeting +1,000bbls/day net production from Wizard Lake**
- 2 Strong news flow - Rex-1 now producing, Rex-2 & 3 to follow by year end**
- 3 Low cost operations drive robust margins**
- 4 Working interest in Wizard Lake increasing to 50% after two well farm-in**
- 5 Alberta – a low-risk, tier-1 Oil & Gas jurisdiction**
- 6 Multiple growth opportunities via exploration and acquisition**

WBE : ASX'S EXPANDING OIL AND GAS PRODUCER

Vision: To build a mid-tier oil & gas producer through drilling and acquisition.

Alberta, Canada

Wizard Lake Oil Discovery - Jan 2019

- Rex-1 now producing at ~200-250 bopd**** (gross)
- 18 additional drilling locations in the oil field**

2019 Plan

- Install production facilities at Wizard Lake and produce discovery well - **COMPLETE**
- During H2 drill two horizontal wells at Wizard Lake (Phase 2) and put on production – **RIG MOBILISING WEEK OF 15TH JULY**
- Targeting gross production of 300 - 400bopd per well
- Targeting net production of ~800boepd by end of CY2019 – **ON TRACK**
- Funding in place – **SECURED**

Existing production base

- 250 boepd (net to WBE – excluding Wizard Lake)

Western Australia

100% WBE

Low holding cost

DISCIPLINED STRATEGY EXECUTION

Well-defined growth strategy

Focus: Wizard Lake Development

Alberta, Canada

Phase 1: Completed*

- Rex-1 successfully drilled
- Flowing 300-400 bopd prior to end of cleanup testing

Phase 2: Fully funded and underway**

- Production facilities completed Q2 CY19
- Rex-1 tied in and commence production Q2 CY19
- Rex-2 drilling to start July 19, Rex-3 ~ Nov CY19
- Additional wells will be drilled if JV partner participates

Future development: Planning commenced

- Reserves assessment indicated likelihood of **18** gross well locations***
- Wizard Success provides additional nearby potential

Low Cost Reserves & Production Growth
Scalable
High Reward

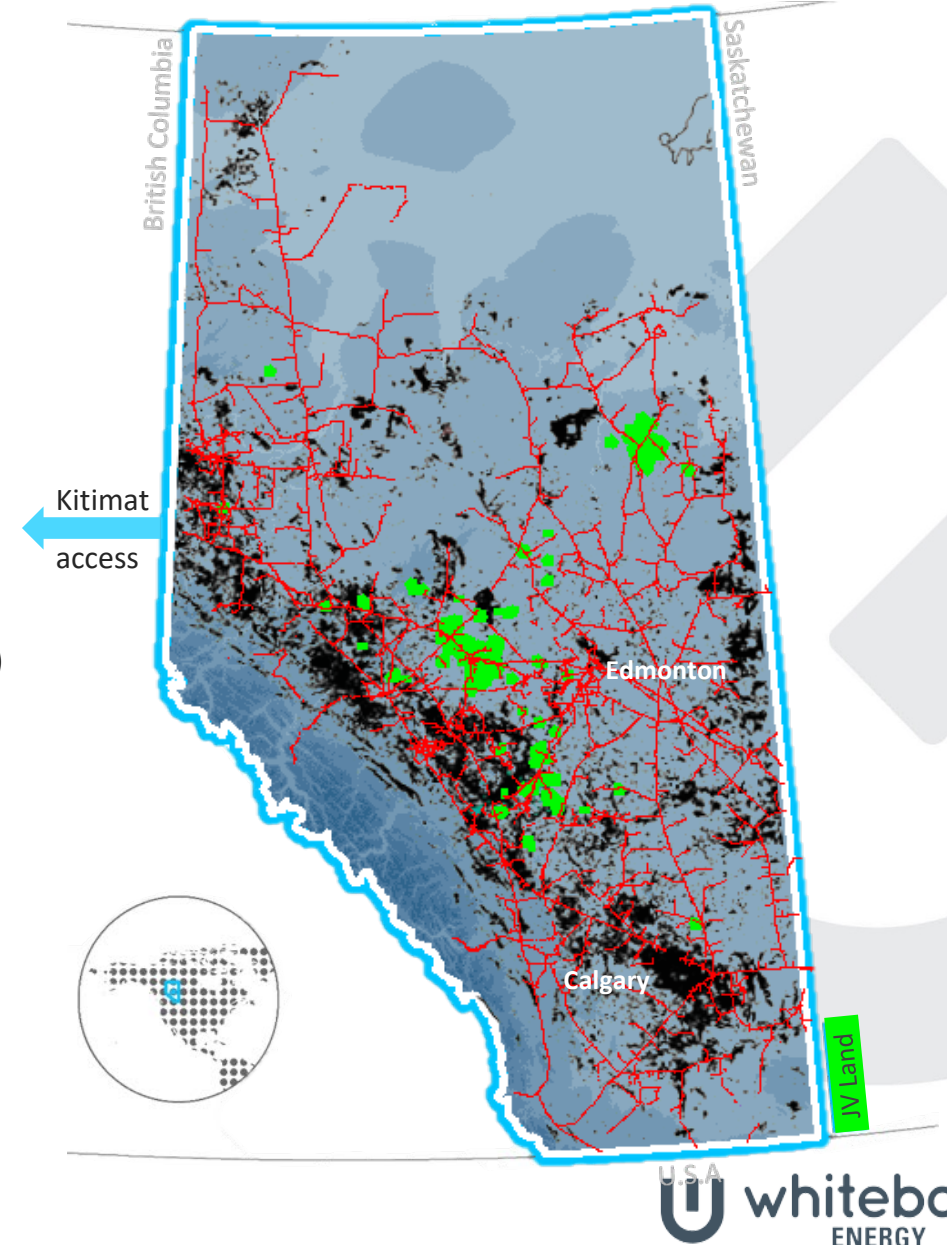

* ASX Release 21 January 2019

*** ASX Release 19 June 2019

ALBERTA, CANADA – A PREMIER ADDRESS – 3RD IN WORLD RESERVES

- 100 rigs operating (3,500 wells/yr) + 1,250,000hp frac pumps
- Supportive government and community
- Attractive regulatory and fiscal regime
- Highly experienced workforce
- **Low cost operating environment:**
 - **Drilling costs low, speedy approvals**
- **Easy access to up-to-date independent technical data**
- **Many areas “ripe” for application of horizontal, multi-frac well technology**
- Underutilised local infrastructure but export bottlenecks – AER curtailment (>10,000bopd)
- Connected to USA with oil and gas pipelines – main market
- Proposed pipeline expansions:
 - Kitimat Project – coastal Gaslink LNG pipeline
 - Keystone Pipeline to USA ~ 1mmbopd
 - TransMountain Pipeline – 590m bopd
- Cultural similarities to Australia

WIZARD LAKE OVERVIEW

- **Net 2P Reserves 225,000* bbls oil ascribed to four wells**
 - Additional wells expected to increase Reserves
- **Targeting Cretaceous Rex Sand**
 - Data from Rex-1 demonstrates good reservoir qualities
- **Passed over by previous producers in 1950-60's targeting deeper Reef pools**
 - Historic data provides strong well control
 - De-risks location of additional wells
- **Modern drilling and completion techniques enhance economics**
 - Horizontal drilling and fracture stimulation techniques validated by success at Rex-1
- **Substantial nearby infrastructure**
 - Refineries located ~25km by road
 - Transport costs ~C\$2.5/bbl
- **Working Interest**
 - Working Interest in Wizard Lake increased to 50% after two well farm-in

PHASE 2: FUNDED AND UNDERWAY*

Production Facilities and Pipeline: Rex-1 in production

- **First oil from Rex-1 on June 5th**
 - Currently producing 200-250 bbls/day (gross)**
 - Oil delivered at 99.5% purity
- **Production Facilities constructed and operational on schedule**
 - multi-well pad
 - associated processing equipment
 - pipeline to Rex-1 located 1.6km to SE
- Facilities will service additional Rex wells as they are drilled and brought into production
- Whitebark receiving 100% of net income from well until after payout of the facility and well workover costs

* ASX Releases 22 March 2019 and 6 May 2019

** ASX Release 2 July 2019

PHASE 2: 2019 MINIMUM TWO WELL DRILLING PROGRAM*

Rex-2 and Rex-3 offer step change to WBE's production profile

- **Rex-2 target spud in July:**
 - Targeting 300-400bopd
 - On existing surface location
 - Target depth 1,400 metres, target lateral length 1,600 metres
 - 35-40 stage frac
 - Estimated cost C\$2.3m
 - 40% Working Interest post payout
- **Rex-3 planned to commence drilling ~Nov 19:**
 - Targeting 400-500bopd
 - Target depth 1,500 metres, target lateral length 2,000 metres
 - 40-50 stage frac
 - Estimated cost C\$2.7m
 - 50% Working Interest post payout

Funding in place for development activities at 100% if required:

- \$2.0m cash reserves
- \$2.0m additional cash from strategic placement completed in May 2019
- Revenue from existing producing wells will supplement cash reserves

INVESTMENT SUMMARY – PARTICIPATE IN A 2019 GROWTH STORY

Activity – Firm Funded Program

- Rex-1 successfully producing at 200-250 bbls/day*
- Working Interest in field increased to 50% following two well farm-in**
- Rex-2 imminent
- Rex-3 spud Q4 2019

Outcome

- Target 800-1200 boe per day

Current Enterprise Value: \$6m

Transformational Period for the Business

- Repeatable
- Additional growth via disciplined acquisitions

* ASX Release 2 July 2019

** ASX Release 31 May 2019

DISCLAIMER

No representation or warranty, expressed or implied, is made by Whitebark Energy Ltd that the material contained in this presentation will be achieved or prove to be correct. Except for statutory liability which cannot be excluded, Whitebark Energy, their officers, employees and advisers expressly disclaim any responsibility for the accuracy or completeness of the material contained in this presentation and exclude all liability whatsoever (including in negligence) for any loss or damage which may be suffered by any person as a consequence of any information in this presentation or any error or omission there from. Whitebark Energy do not have any responsibility to update any person regarding any inaccuracy, omission or change in information in this presentation or any other information made available to a person nor any obligation to furnish the person with any further information.

This presentation contains certain statements which may constitute "forward-looking statements". Whitebark Energy believe that the expectations reflected in these statements are reasonable. However such statements are only predictions and are subject to inherent risks and uncertainties and changes in the underlying assumptions which could cause actual values, results, performance or achievements to differ materially from those expressed, implied or projected in any forward-looking statements.

The information in this presentation is an overview and does not contain all information necessary for investment decisions. In making investment decisions investors should rely on their own due diligence and consult with their own technical, legal, tax, business and/or financial advisers.

All dates in this presentation are for calendar years unless stated FY for financial year and all references to \$ are in Australian currency, unless stated otherwise.

Cautionary Statement Prospective Resource Estimates

The estimated quantities of petroleum that may potentially be recovered by the application of a future development project(s) relate to undiscovered accumulations. These estimates have both an associated risk of discovery, as well as a risk of development. Further exploration, appraisal and evaluation is required to determine the existence of a commercial quantity of potentially moveable hydrocarbons.

References and Competency Statements

The Company confirms that that it is not aware of any new information or data that materially affects the information included in the relevant market announcements included in this presentation and, in the case of oil and gas Reserves and Resource Estimates, that all material assumptions and technical parameters underpinning the estimates in the relevant market announcements continue to apply and have not materially changed.

A Note Regarding Forward Looking Information

This announcement includes certain statements related to our future business and financial performance and future events or developments involving Whitebark Energy Limited ('WBE' or 'the Company') that may constitute forward-looking statements. All statements, other than statements of historical fact, that refer to any future oil and gas production, resources or reserves, exploration results and events that the Company expects to occur are forward-looking statements. Although the Company believes that the expectations in those forward looking statements are based upon reasonable assumptions, such statements are not a guarantee of future performance and actual results or developments may differ materially from the outcomes anticipated. This may be due to several factors, including market prices, exploration and exploitation success, and the continued availability of capital and financing, plus general economic, market or business conditions. Investors are cautioned that any such statements are not guarantees of future performance, and actual results or performance may differ materially from those projected in the forward-looking statements. The Company does not assume any obligation to update or revise its forward-looking statements, whether as a result of new information, future events or otherwise.

Thank you

David Messina
